SCHOOL OPENS AT JEFFERSON HI NEXT MONDAY

Principal James Ferguson Makes Urgent Plea For Parents To Have Students Enrolled First Day

On next Monday morning Jefferson Union High School bells will ring again at 8:15. This will mark the opening of the new school year, 1937-38.

The regular staff in charge of the buildings and grounds was supplemented by additional help from the WPA and many extra touches have been given to the physical appearance, both inside and outside the buildings. As a consequence everything is in ship-shape for the opening of school.

The principal and faculty, too, have been busy arranging all details for the opening day. Individual records have been examined and courses of study planned for the incoming students, as well as for those already in attendance.

Construction work has been going on as rapidly as possible on the new gymnasium and swimming pool, and before the end of the semester Jefferson High will have one of the most complete physical education buildings on the peninsula. For this the school is indebted to the federal government for a PWA grant of $69,545, as well as to the citizens of the district, who voted the bond issue of $85,000.

Changes and additions to the faculty have taken place. Mr. Oscar Busch will have charge of the music department, replacing Mr. Thomas Stevens, who resigned at the end of last year. Mr. Edwin T. Harding will teach general science, and Miss Ernesta Rebizzo will conduct a class in

SET FIRST DERBY FOR GREYHOUNDS CALIFORNIA BRED

Baden Derby To Be Run Next Week With Two Preliminaries

The first running of the California Derby, $1000 stake for California bred racing greyhounds, holds the spotlight at Baden Kennel club this week. The survivors of the two elimination races, run Wednesday and Thursday nights, meet tomorrow in a nine-dog field at five-sixteenths mile.

The field of 18 dogs was typical of the best efforts of California breeders. Half of the entries were sired by Ralph Agricola, imported Australian, who made racing history at Baden in 1932. Three of the pups were from one litter: Cloud Lite, Frightful Lady, and Traffic Agricola, by Ralph Agricola-Traffic Countess, whelped in December, 1935.

Fifteen of California's leading racing kennels were represented in the list of entries. Delta Kennels, maintaining the largest breeding farm in the west. R. R. Russell and Jack Roche each had two entries.

The Baden Derby, a $1500 stake, will be run next week. The two preliminaries, to be run Wednesday and Thursday, will be at five-sixteenths of a mile, with the final at seven-sixteenths mile, to be decided August 28. An entrance fee of $25 has been set, and the value of the race, including purses for the elimination heats, will exceed $2000.

The California and the Baden derbies are the richest dog races run in America this year.

Parked Car Starts And Crashes House

A car parked on Mission circle, owned by C. F. Palmer, an employe of a local baking company on Hillcrest drive, started rolling down hill, Tuesday morning of this week, and crashed into a house owned by T. O'Rourke, causing considerable damage.

Sergeant Hilton captured the car and had it impounded in a Daly City garage after the crash.

Palmer has made arrangements with the owner of the house to repair the damages, so no charge was filed.

EXPECT MANY COUNTIES TAKE PART IN FAIR

Flood Lights Will Turn Agriculture Building Into "Gold Bowl" Of California

National recognition of the California State Fair is expected to be even more pronounced in 1937 than last year, when visitors from thirty-nine states and eight foreign countries attended the exposition.

Advance reports indicate a possible 700,000 attendance, at the fair, September 3 to 12, particularly from the Pacific Coast and other Western states. In addition to the Australian tour of agriculturists, which stops at the fair two days, representation from Alaska, Canada, Hawaii, England, Holland, Java, Phillippine Islands and South Africa are expected. These countries were also represented in out-of-state registrations at the fair last year.

Plans of the fair board and Secretary Manager Muckler to attract attention to the Agriculture Building, the largest structure on the grounds, are receiving wide approval. Through an arrangement with a Hollywood firm, two banks of eight colored-light projectors are to be turned on the west face of the huge

POPULAR CLERK IN WATER OFFICE NOW MARRIED

Church Nuptials Unite Two Prominent Members Of The Younger Set

In the presence of a large congregation, the nuptials of Miss Sue McKeown and George Hopman, were solemnized at the Church of Our Lady of Perpetual Help, Saturday evening of last week.

The wedding was one of the prettiest of the year. Promptly at 7 o'clock, as the strains of Wagner's well known masterpiece pealed from the chimes, the bridal party entered the church, led by the sisters of the bride, Miss Catherine, as bride's maid and Mrs. Henrietta Moral, as matron of honor. They made a charming picture, gowned alike in periwinkle blue with touches of fucia red in hats, sashes and slippers, carrying lace edged bouquets of roses and bouvardia.

Miss Sue never looked lovelier than when escorted in by her father and given into the keeping of the waiting groom. She wore white chiffon and delicate lace, small hat and halo veil and carried a huge bouquet of gardenias and lilies of the valley centered with orchids.

Theodore Hopman served his brother as best man, and Hal Moral, Stanley Benson and Hugh Smith Jr. seated the guests.

Mrs. Loretta Johnson, with Miss Virginia Cullen at the organ, sang pleasingly Gounod's "Ave Maria," which added much to the impressiveness of the ceremony.

A reception followed at the George Washington Masonic Hall in Ocean View, where refreshments were served from a buffet table presided over by Mrs. McKeown.

Carrying out a promise of long standing, Johnny Degliantoni, with orchestra, played for dancing, which was much enjoyed by the merry company.

Could the future of this radiant pair be measured by the sincerity of the congratulations showered on them, their happiness is assured. Both are well known. Sue, since leaving high school, has been in the office of the water clerk and is famous for her courtesy and cheeriness. George is a valued and popular member of the police force.

The couple left by motor for a two weeks honeymoon—destination definitely a secret. On their return they will reside in their newly furnished home at 64 Eastlake avenue.

Tuberculosis Pavilion Threatened By Ruling

UNHURT BY 100 FOOT FALL INTO D. C. QUARRY

San Francisco youngster, Dana McCall, who fell down 100 foot cliff into quarry at Mission and Hillside boulevard, and was only bruised and scratched, had his hurts dressed by nurse Gertrude Woods at Villa Sanitarium. He was sent home shortly afterward, apparently none the worse for his harrowing experience.

BOY IS UNHURT BY HURTLING FROM CLIFF TOP

Falls Over Hundred Feet To Bottom Of Quarry—Only Bruised And Scratched

While playing near the edge of the Market Street Railway System quarry, Monday afternoon of this week, a San Francisco boy fell down the precipitous face of the cliff below to the bottom of the excavation at Hillside boulevard and Mission street.

The lad was Dana McCall of Santa Rosa avenue, who lives with his mother at that address.

The fact that he grasped at the rocky wall and laid hold of several shrubs growing on the walls, on his way down, saved young Dana from serious injury.

On being taken to the Villa Sanitarium by Daly City police officers, no broken bones could be located. Examination revealed that the lad had sustained a number of bruises and lacerations about his face and body.

On arrival at the hospital young McCall expressed a desire to go home at once. The examining surgeons marveled at his miraculous escape from serious injury, but granted his request and he was taken home by his mother.

Police Eagle Eye Results In Arrest Much Wanted Youth

The alertness of the Daly City Police Department caused the apprehension of a young man who has been wanted for several months by San Jose officials.

At about 3:30 a. m., last Sunday morning. Sergeant Sunderland and Officer Dalton observed a machine coming up Mission street from Colma to the top of the hill at an excessive rate of speed—probably 60 miles per hour. The car was being driven by a youth who gave his name as Albert John Mathieu and his address as 3213 Mission street, San Francisco.

The young man was arrested and taken to the Daly City jail, where he remained over Sunday.

Chief Reardon, after getting a good look at the boy, decided he answered the description contained in a circular sent out some time ago by the police department of San Jose regarding a youth wanted in that city for alleged grand theft and robbery. The San Jose department was communicated with and officers were sent here and removed the boy to the jail in that city.

It May Have Been, But We Think Not!

Careless Smokers Liable To Arrest

Motorists who throw lighted matches, or burning cigarettes or other live tobacco embers from their cars on the highway are cautioned against the practice.

Highway Patrol officers are intensively enforcing the state law which prohibits such acts as a fire menace.

MUCH ACTIVITY IN BALL GAME AT HI GROUNDS

Lively Bunch Of Youngsters Come Here To Set Down Local Players

The fans attending witnessed some of the snappiest baseball ever seen here at the Jefferson Union High School diamond, last Sunday.

A team of youngsters representing the Noe Valley Merchants outhit, outplayed and outgamed the local Daly City Tanforan Junior ball club in every department. No breaks. Just darned good baseball.

The visitors displayed more "pep" and action and alertness than has been seen by any players on the local field in many a moon. They were on their toes every second of the contest (if such it can be called), and their constant activity was refreshing in contrast to the listless attitude we are accustomed to see displayed here.

Not until Petrocchi got a "lumber pile" three bagger did the local contingent do any good for themselves or get even near scoring position. The visiting left fielder succeeded in reaching the ball with his finger tips, but was unable to hold it owing to the debris over which he stumbled.

It is the hope of this writer that more of this kind of ball players may entertain our fans in the future. It may have a salutary effect in awakening some of our local athletes from their lethargy while going through the motions of playing the National Pastime.

Kidnaped Child Foils Captor, Escapes

Snatched near her home while selling flowers, Dorothy Skinner of San Francisco, 9, recently outwitted her abductor and escaped. Her kidnaper drove up and seized her while her father looked on helplessly from a window in their home. Taking the child to an outlying section of the town, the man made improper advances, Dorothy told police. Distracting his attention for a moment, she leaped from the car and ran to a nearby highway, where she flagged a car and was taken into town. The only description Dorothy could give of her captor was that he had a "black mustache."

TALENT WANTED FOR HOSTESSES AT FLORAL FIESTA

Committee Invites All Who Wish To Take Part In Pageant To Apply

(Continued from Page 1)

inists, accordionists, senoras, senoritas, Indians, concellitas, caballeros, horsemen and horsewomen.

Scratching their heads in an effort to find sufficient talent the committee—which has already announced it will take participants in the pageant from only among San Mateo County residents—will welcome all persons interested in trying for a part.

Meanwhile the publicity committee, on its own initiative, is interviewing attractive young women—all must be over 18 years of age—who wish to become hostesses for the Fiesta.

At the Daly City Record offices are several official entry blanks for girls who wish to enter the competition for hostess.

With no prizes offered and only for the glory of being photographed for publications of nation-wide interest as the goal, nearly a score of girls, many from this section, have already inquired for information about duties of hostesses.

The fifteen girls selected by the publicity committee as hostesses will simply pose for pictures and be subjects of newspaper writing and will welcome visitors at the Fiesta.

Any girl selected as hostess may not be barred from participating in the Fiesta. This is a fundamental of the publicity committee's campaign to find the county's 15 most beautiful girls.

The only information necessary to be given to the committee are the name, address, phone, age, weight and color of hair of the candidate. Get an entry blank from The Record or send information direct to Fiesta headquarters, 116 B street, San Mateo.

THAT SUMMER RAMPAGE

While California basks under a beneficent sun and Dame Nature seems at peace with us, she has been cutting up madly elsewhere. On Staten Island, New York, a furiously churning wall of water crumples a brick building into a pile of junk, kills a score of persons and seriously injures several others.

But it's in Idaho that nature has been engaging in the craziest didoes. In the richest agricultural area of that state, valuable farm lands are simply and literally falling away, to the accompaniment of thunderous subterranean rumblings and billowing clouds of yellowish dust. Even geologists haven't been able to explain why these once flat, fertile fields should now so suddenly crumble and sink, forming in their stead a new canyon.

Even though occasional frosts and heat waves harass us in California, the earth has never taken it into its head to disappear. We can thank Dame Nature for keeping that queer phenomenon elsewhere.

THE WEST DEPENDS ON MINING

Recovery has brought with it a substantial revival in consumption of copper. Prices have been reasonably stable.

This is good medicine for Western America. Mining made the West—and mining still does much to maintain it. Increased demand for the base metals especially, means more employment, higher payrolls and stimulated purchasing power in many states.

Steel production rose 35 per cent; automobile production 12 per cent; residential construction 54 per cent; lumber production 8 per cent; electric power output 13 per cent; factory payrolls 29 per cent and factory employment 13 per cent.

Farm prices rose 18 per cent; construction costs zoomed 13 per cent; and department store prices upped 7 per cent. Stocks averaged 18 per cent higher and bonds 2 per cent higher.

A Business Week survey shows that business activity averaged 10 per cent higher in the first six months of 1937 than in the same period last year.

WORK MUST BE FOUND FOR WILLING HANDS

By J. W. MARCHBANK
Pioneer in Frontier Mining Work

In our long battle against unemployment we must learn all we can from other countries. In England, particularly, the result of scientific methods has been gratifying in the extreme. One thing especially stands out: the reactionaries are wrong in shouting from the housetops that people of a certain kind do not want to work and there is no use in governmental authorities trying to create or find work for them.

The report of the Unemployment Assistance Board in England shows a decrease of $15,000,000 in unemployment assistance payments during 1936. The decrease in the number of applicants was 16.3 per cent.

It is pointed out in the report that persons in receipt of assistance have shared in the general increased opportunities for employment.

The harm done by long unemployment to young men has been given deep study. It has been found quite a large number of young applicants for assistance are losing the appreciation of the difference that would be made in their lives if they could secure employment.

The physical condition of the applicants is sometimes a drawback. Some of the unemployed are capable of work, but are not likely to attract the favorable notice of an employer when presenting themselves for jobs. Efforts are under way to re-establish the health of such applicants for work.

Things may have been pretty bad in he depression, but a stiff upper lip always helps. It seems to me there has been an odd mixture of pessimism and optimism among our citizens for the most part, possibly something like the mental state of the farmer in one of Lord Tennyson's poems who was asked about his farm. In his Lincolnshire dialect, the man of the soil replied:

"How be the farm gittin on? Noaways. Gittin on i'deead!

"Why, tonups was haafe on 'em fingers an' toas, an' the mare brokken-kneead,

"An' pigs didn't sell at fall, an' wa lost wer Haldeny cow,

"An' it beats ma to knaw wot she died on but wool's looking oop ony how."

Some American observers may think the Supreme Court will never be reformed, but critics over in Europe, strange to say, are more hopeful. The Manchester Guardian recently said editorially:

"English Liberals will regret that Mr. Roosevelt's plan to reform the Supreme Court has come to grief in the United Sates Senate. Mr. Roosevelt proposed that judges should be invited to retire at the age of seventy and that, in case of refusal, additional judges should be appointed up to a maximum of six.

"He made this proposal because previously the aged and conservative judges of the Court had declared unconstitutional almost every important act by which he hoped to put into force his New Deal and because the only other way to remove this barrier would have been the clumsy and almost impossible one of amending the Constitution.

"It was, one may admit, a scheme to 'pack the Court' and to that extent objectionable, but to the outsider it seemed justified both by the history of the Court itself and by the enormous weight of progressive opinion behind Mr. Roosevelt's New Deal. The Supreme Court, moreover, did not diminish suspicions concerning its impartiality by changing its mind, when the scheme was announced, and declaring constitutional several Acts which a few months before it would certainly have declared unconstitutional.

"Mr. Roosevelt's opponents (and many of his 'supporters') have said that he should have been content with this sudden change of opinion, but if the Supreme Court can change its mind once it can change it again.

"Now that the sword of Roosevelt has been removed from over their heads, it is quite conceivable that the judges will return to their former frame of mind."

Wonderfully clear thinking. Those paragraphs should be read again and again by every thoughtful American.

Business Men Help Boy And Girl Scouts

Through the generousity of several Daly City merchants and friends of the Daly City Boy Scout Troop No. 141 and Girl Scout Troop No. 2, sponsored by the Grace Church of the Nazarene, the boys and girls enjoyed a three and a half day vacation, last week, close to home in the camps built for their use at Thornton Beach.

Another pleasure this same group of Girl and Boy Scouts, also the Cubs of Pack 141, enjoyed was the educational tour through the new offices of the Daly City Record Thursday afternoon of this week. Seeing their own local paper going to press and having all details of news printing thoroughly explained to them by the editor and publisher of the Daly City Record was a thrill that those who had the privilege of being present will not soon forget.

Lesson Sermon Of Christian Science

In all Christian Science churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., a Lesson-Sermon will be read Sunday, August 22, on the subject "Mind."

The Golden Text will be: "Let this mind be in you, which was also in Christ Jesus" (Phil. 2:5). Bible selections will include the following passage from Romans 11: 33, 36: "O the depth of the riches both of the wisdom and knowledge of God! how unsearchable are his judgments, and his ways past finding out! . . . For of him, and through him, and to him, are all things: to whom be glory for ever."

A passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included, which reads as follows: "Divine metaphysics, as revealed to spiritual understanding, shows clearly that all is Mind, and that Mind is God, omnipotence, omnipresence, omniscience, —that is, all power, all presence, all Science. Hence all is in reality the manifestation of Mind" (p. 275).

'Do You Want Your Service Discontinued'

Electric Company Manager
(J. Raymond Northcutt)

Mr. John Q. Public shopped for groceries and walked out of the store when the price was too high. In the play "Power" now at the Alcazar in San Francisco he had no place to go when he threatened to shop elsewhere for electrical current.

J. Raymond Northcutt, playing the part of the electric company manager, bluntly demands: "Do you want your service discontinued?" when John Q. said the rates were too high.

Northcutt's characterization is one of the high spots of the play. There are nearly 100 actors and 300 swiftly changing light cues in this modern drama of modern industry. It is a Federal Theater production.

Rich Man: "There's no sense in teaching the boy to count over 100. He can hire accountants to do his bookkeeping."

Tutor: "Yes, sir, but he'll want to play his own game of golf, won't he?"

Exhibition Of American Historical Buildings On Display In Washington

(By Hart Goodrich)

In the art gallery of the new Department of Interior building another example of the present administration's foresight is being displayed in the exhibition of drawings and photographs reflecting the development of early American architecture. This display is part of the Historic American Buildings Survey, sponsored by the National Park Service, the Library of Congress and the American Institute of Architects.

The majority of the pictures shown in the exhibit are the work of persons enrolled on various re-employment projects organized for this purpose from time to time during the past four years.

Between allotments of work relief funds the survey is maintained by the National Park Service on a skeleton basis, with volunteer members of the American Institute of Architects acting as field men, preparing and submitting lists of important structures to await measurements as funds become available.

The Historic American Buildings Survey is an important step forward in the conservation of our national historic resources. The type of shelter devised by mankind in every age and climate is an expression of the life of the people. In the United States the adobe hut, the cliff dwelling of the agricultural Indian, the tepee of the nomad, the log cabin of the pioneer, the cottage, the farmhouse in the country, the city dwelling, each expresses eloquently the culture and mode of life of the original tenant or owner.

The churches and missions of the Franciscans and Jesuits of the South and West, the churches of the Russians in Alaska, the meeting houses of the Puritans in the East and Middle West, the colleges, hospitals, mills, warehouses, shops, and other buildings of use in the community, all belong to a chapter of the nation's history.

Included in this preliminary collection are two California buildings, Mission San Miguel Arcangel in Monterey County and the Russian chapel in Sonoma County. San Miguel, founded in 1797, was the sixteenth of the missions established in California. The present church was supposedly built in 1818 on the site of former construction. Walls are almost entirely of adobe or mud brick. The church was built by Indian converts under the direction of the missionary fathers. The interior walls are decorated with fanciful paintings, mostly representing architectural features. The colors still remain brilliant. These are the most extensive and elaborate murals now extant among the California missions. Three ranges of the mission quadrangle adjoining the church are in ruins.

Fort Ross was established by Russian Colonists who came from Alaska in 1812. The colony failed and in 1844 the entire establishment of fifty-nine buildings, a redwood stockade, two octagonal block houses and all the territory north to the Oregon line was sold to General Sutter of Sutter's Fort for $35,000. The remains of the Fort Ross settlement were purchased by the state of California in 1906. The chapel is a unique remant of the meager Russian colonization south of Alaska and is clearly the work of people schooled in a primitive tradition of timber construction. It is a unique American pioneer structure.

Unfortunately, a large part of our early American architecture has disappeared. It is inevitable that the majority of structures will at some time outlive their ultimate usefulness. And it admittedly is impracticable to preserve all buildings or sites associated with events of incontestable historic importance.

It is possible, however, to record in a graphic manner and by photography, before it is too late, the exact appearance of these buildings and their surroundings. This is the purpose of the Historic American Buildings Survey.

Interesting News Of Daly City Band

A new library of music for the Daly City Band has been received. Among the number are many famous popular and standard selections, operatic and descriptive; a diversified collection of selections that will appeal to all lovers of good music.

The band has already started to rehearse a program to be given free to the citizens in October. This concert will be one of the outstanding series to be given by the band during the fall and winter season. All concerts will be scheduled during the mid-week, so that all will have an opportunity to attend.

Band Master George Brenner has been selected to furnish the San Francisco Allied Printers a 30 piece band for the big Labor Day parade, September 6.

GOOD HORSES LIKELY TO DEVELOP AT THREE

By J. W. MARCHBANK

Change in form from two years to three years is a study well worth following up. War Admiral was one of the first flight as a two year old, but in a number of handicaps had a concession in weight from Maedic and others. In the winter he grew and developed to such an extent he became an outstanding three year old. In fact, War Admiral takes rank with the best three year olds of other seasons and there have been plenty of good ones.

Since War Admiral's forced retirement Flying Scot and Burning Star have been coming to the front in the three year old division. Flying Scot was the victor in the Classic at Arlington Park. Burning Star was the best in the Travers at Saratoga last Saturday.

In the Eastern Shore Handicap at Havre de Grace, last fall, eleven colts toted more weight than Burning Star. That is a clear indication of the way the chestnut son of Big Blaze came along in the intervening months.

As is well known, Flying Scot is also a chestnut. He is a son of the highly successful Sweep stallion, The Porter. Probably his dam's name, Caledonia, had something to do with his own naming. Pundits are not surprised at progeny of The Porter coming to the fore. The Porter was one of the best runners of his time. There have been sires that did little or nothing on the turf, but in my estimation only horses that have clearly demonstrated the "will to win" should be given wide opportunities in the breeding paddock.

As showing the vitality of the thoroughbred, it may be noted that The Porter was eighteen years old when he procreated Flying Scot. The sustained potency of the thoroughbred cannot be matched by any other light breed. As to the heavy breeds, they are left far behind in that respect.

High Students Back To School

The Jefferson Union High School opens August 23. The beginning of another educational year is at our threshold. The old town will be alive again with over a thousand students back on the job. Their happy faces again in our midst will give to our scheduled existence a new zest and inspiration.

Our boys and girls are fortunate for living in the neighborhood of an institution of learning so adequately equipped to meet every educational need.

Last year's promotions will be realized this semester in new teachers, new classrooms and new books. We congratulate our young men and women on what they have already accomplished and trust that continuance of sincere, happy endeavor will pay off in larger dividends this year.

EXPECT LARGE ATTENDANCE AT OUR STATE FAIR

From Robert Muckler, secretary-manager, came the announcement, his week, that he had made an estimate that three-quarters of a million persons will attend this year's California State Fair, September 3 to 12.

Declaring this year's exposition will be more lavish than ever before. Muckler hailed this fact as an indication that California is more prosperous than at any time since the beginning of the depression.

Excellent Game! Wonderful Crowd!

(By A. Goof)

As announced in the Daly City Record of last week, the married men and the single men of the Daly City Aerie of Eagles played a game of baseball, last Sunday, at Jefferson High School diamond.

Pete Linden's oldsters fielded, hit and ran bases in a manner that would have done credit to the New York Yankees or the Chicago Cubs. Nothing that came their way in the field got past them. And the way they pasted that apple at the plate was a sight to behold. The audience was almost convinced that the Baden dog track had been transported to the field when these "sports" started gamboling down the base paths with a speed that might have been the envy of Ty Cobb or Willie Keeler had either been present.

Oh, boy! some ball playing!

And Harold White's youngsters were a riot. They fielded, hit and ran bases like the best team ever put on the field in either the National or American League. Double plays and two-baggers, triples and home runs seemed to be their specialty—particularly home runs at dinner time.

Let me tell you this game was the piece de resistance (whatever that is) of the present or any other season.

And the pilfering of the sacks by all the players—old and young alike—was a marvelous "feet."

Whoa, boy! The alarm just sounded for time to arise and begin my daily labors—and a wonderful pipe dream was thereby dispelled.

The sad part of the whole affair is that no players appeared on the grounds and there was no game at all.

In case you think this is funny—you should have been there.

We were informed, after this effusion had been put into type, that the game had been postponed to next Sunday, August 22.

SCHOOL OPENS AT JEFFERSON HI NEXT MONDAY

Principal James Ferguson Makes Urgent Plea For Parents To Have Students Enrolled First Day

(Continued from Page 1)

beginning Italian if a sufficient number of pupils enroll. Miss Elna Peterson will have charge of the office as secretary. She is a graduate of the College of the Pacific, where she had three years experience in office work.

Principal Ferguson makes an urgent appeal to all parents to see that their boys and girls enroll on the first day of school. The first reason for this is that if they do not enroll on the first day they do not get started in their school work along with the other members of the class. As a consequence, they are under a handicap from the beginning and may never catch up in their work. It is among the students who enter late that almost all failures are found, Mr. Ferguson states.

The second reason is that some of the classes will not accommodate all of the students who apply, and those who enter first will have first claim.

Daly City Post and Unit No. 410, American Legion and Auxiliary, were well represented at the state convention held in Stockton last week. Commander Jakobsen was the sergeant at arms of the Twenty-sixth District. Many members served on the various convention committees. Eight members of Daly City Unit took part in the drill team contest, held Monday morning. Elementary Schools Open Next Monday

The elementary schools of Daly City open August 23. Vacation days are over and summer is nearing its close. Our city streets will be alive again with boys and girls of various ages, laden with school books.

Fresh air and sunshine have done their invigorating work, for our sons and daughters look well seasoned and physically fit for the atmosphere of the classroom. Isn't it splendid to be back to our books and tasks after a long, pleasant intermission? All play and no work would make Jack just as dull a boy as though he worked all of the time with never a holiday.

In case it may be difficult to break the well worn habit of sleeping late, bring out the forgotten alarm clock and put it back into circulation, for who could bear the chagrin of being late the first day of school—next Monday morning.
